**BEECH STREET BOOKS**

Climate change is moving the North Pole. The Earth's axis is moving about 10 centimetres each year.

Regions of Canada "Arctic Lands"

Lightning causes about 45% of Canadian wildfires.

Canada's Canada's Changing Climate: Problems and Solutions "Land Use and Climate Change"

About one litre of maple syrup is made from each tree. Some sugar farms have over 50,000 taps. In 2019 Canada produced about 40 million litres of maple syrup. That's a lot of trees giving sap!
